Sovereignty by Created Alive

Flesh abused, soul confused
Lost and broken, bound and gagged
Stripped of pride while dressed in drag

Alone now I step outside
And I hear you crying as you cross my mind

Flesh abused, soul confused
Lost and broken, bound and gagged
Stripped of pride while dressed in drag
I'm calling on the morning light to come

Falling forward in my dreams
If only You would hear me scream
I'm calling on the mourning of Your son

Alone now I step outside
And I watch you crying as you cross my mind

I'm falling forward in my dreams
If only You would hear me scream
I'm calling on the morning light to come

Turning out the darkest light
Turning darkness into night
I'm calling on the mourning of Your son

Could it be that it's the, the enemy?
Could it be that it's he, his royalty?
Could it be that it's the, the Christ in me?
Could it be that it's He, His sovereignty!

Alone now I step outside
And I hear You crying as you cross my mind

Alone now I step outside
And I see You smiling as I cross the line

I Say, Beautiful Day by Created Alive

It's rainin' again, rainin' and pourin'
I'm cold in my bed and the enemy's callin'
Through the clouds in my head
And I fear the sky is falling down on me

And I say, what a beautiful day it's gonna be

I'm dreamin' again, dreaming of drownin'
I'm cold in my bed and the enemy's poundin'
Through the clouds in my head
And I feel the sky has fallen down on me

And I say, what a beautiful day it's gonna be
And I say, what a beautiful day it's gonna be

Now bleed with me
And breathe with me
Conceive with me - belief
Believe

when I say, what a beautiful day it's gonna be
Now I say, what a beautiful day we're gonna see

Stormy weather by Created Alive

Foggy weather
Clouding up your mind forever
It's alright
It's just a bad day
And the weather will change
If you don't fail to continue

Do you want to say that?
That you are gonna feel glad?
Maybe you just needed to go through that
To allow you to succeed
when it counts

Sodden weather
Flooding through your day forever
It's okay
It's just a damp time
And the weather will be fine
If you don't fail to continue

Do you want to say that?
That you are gonna feel glad?
Maybe you just needed to go through that
To allow you to succeed
when it counts

Sudden weather
Suddenly all clear
No more blood or tears
No more mud or fears
No more fighting wars
No more fighting
That's all we're fighting for

Do you want to say that?
That you are gonna feel glad?
Maybe you just needed to go through that
To allow you to succeed
when it counts

Sinner by Created Alive

Father, forgive them for they know not what they do
Like You forgave them when they did these things to You
And though they led You and they bled You to the tomb
It was You that offered up Your life to see these sinners
through

Father, forgive them for they know not what they say
Like You forgave them when they did these things that day
And though they led You and they bled You to the grave
It was You that offered up Your life to see these sinners
saved

Father, forgive them for they know not what they know
Like You forgave them when they turned and let You go
And though they led You and they bled You to the bone
It was You that offered up Your life to see these sinners
home

words Too Few by Created Alive

Tonight, I sing for you
with everything you do
I play this song for you
Tonight, I sing for you

with my words too few
when words won't do
My words too few
Tonight, I sing for you

Tonight, it seems to be
That you're the one I need
You're the one for me
Tonight, I believe

with my words too few
when words won't do
My words too few
Tonight, I sing for you

Tonight, I sing for you
with everything I do
I play this song for you
Tonight, I sing for you

Shining light
Burning bright, bright
Shining light
Burning bright, bright
Shining light
Burning bright
Luminescent life
Striking sight, striking sight

You want to take me home
You'd like to right the wrongs
You try to guide me home
You long to light me
You long to light me
You long to light me up, up, up

Shining light
Burning bright
Luminescent life
Striking sight

You want to take me home
You'd like to right the wrongs
Ya try to guide me home
You long to light me
You long to light me
You long to light me up, up

You want to take me home
You'd like to right the wrongs
You try to guide me home
You long to light me
You long to light me

Frozen over by Created Alive

My hell, my hell it is frozen over
Now I know Your love finds a way
So I walk through the valley in the shadow of
darkness
I'm not alone and I'm not afraid

My hell, my hell it is frozen over
Now I know Your love found the way
So I walk through the valley with the shadow of
darkness
And I find Your light in every moment of grey

My hell, it is frozen over
I feel Your love, it is on fire
This world, it is growing colder
Now we worship our lies

My heart, it is breaking open
I feel Your love, it is on trial
This world, it is growing bolder
Now we worship our pride

My hell, my hell it is frozen over
Now I know Your love found that way
So I walk through the valley with the shadow of
darkness
And I find Your light in every moment of grey

My hell, it is frozen over
I feel Your love, it is on fire
This world, it is growing colder
Now we worship our lies

My heart, it is breaking open
I feel Your love, it is on trial
This world, it is growing bolder
Now we worship our pride

we've been chosen to be broken
So hopelessly broken
So we're brokenly hoping
we can make it tonight

we've been chosen to be broken
So hopelessly broken
So we're brokenly hoping
we can make it tonight

My heart, it is breaking open
I feel Your love, it is on trial
This world, it is growing bolder
Now we worship our pride

we've been chosen to be broken
So hopelessly broken
So we're brokenly hoping
we can make it tonight

we've been chosen to be broken
So hopelessly broken
So we're brokenly hoping
we can make it tonight
we can make it tonight
we can make it tonight

Light of the Storm by Created Alive

Tonight, wind blows my faith
As rain crosses my face
I stand in awe of something so beautiful
Born in the light of the storm

I see the rain, the seas and the shore
This rainbow world, the light of the storm

Lightning shimmering on your skin
Saddened by all of your sin
Your flashes of light on the storm
Created before you were ever born
Your promises of gold
Now I want to live on Your streets of those
Salvation's never been so cold
or all alone

I see the rain, the seas and the shore
This rainbow world, the light of the storm

I see the rain, the seas and the shore
This rainbow world, the light of the storm
The light of the storm, the light of the storm
The light

Goodnight by Created Alive

Breathe in, breathe out
All is well when you're in doubt

Breathe in and fill your lungs
Take the breath of life while, while you're still young
Open your heart then pour it out
Let your feelings shout

Hold Him close while your spirit cries
Before the angels in the choir
'Til the still of the night
when your peace will come
with all the armies marching on
Then all is well

All is well, all is well, all is well

Breathe in and fill your lungs
Take the breath of life while, while you're still young
Open your heart then pour it out
Let your feelings shout

Hold Him close while your spirit cries
Before the angels in the choir
'Til the still of the night
when your peace has come
with all the armies marching on
Then all is well

All is well, all is well, all is well

And it's just a colour like any other
Don't even bother alright
Don't waste your worries feeling blue tonight
Coz He'll stand by to wash your eyes
And taste those tears you cry
Taking your pain into His veins
Then kissing you goodnight
Goodnight, goodnight

Hold Him close while your spirit cries
Before the angels in the choir
'Til the still of the night
when your peace has come
with all the armies marching on
Then all is well

All is well, all is well, all is well

And it's just a colour like any other
Don't even bother alright
Don't waste your worries feeling blue tonight
Coz He'll stand by to wash your eyes
And taste those tears you cry
Taking your pain into His veins
Then kissing you goodnight
Goodnight, goodnight

[Maybe now's the time to pray
I tell myself that everyday
For in the still of the night when his peace has come
with all the armies marching on
Then all is well]
